BLUECREST

IN-LINE DOCUMENT PRINTER

APEX SORTER

PHandling a wide variety of mail types is a challenge for most sorting equipment, and faced almost daily by direct mail service providers.

The Apex allows you to easily sort heavyweight, slick/glossy, and other difficult to process letter and flats. With operating speeds up to 72,000 pieces per hour, you can process more types of mail fast.

Efficient

Automate the reprint process directly within the inserter work cell to complete jobs faster, reduce idle time, and meet client SLA's.

Smart

Consolidate the print and inserting into a single high-integrity "no-touch" operation, reducing labor and risk of errors.

Flexible

Easily integrate with any BlueCrest cut-sheet input inserter. Alternatively, simply bypass the unit or roll it in or out as required.

BLUECREST

Print+ Statement is an innovative solution for managing reprints, and short print runs, as part of a high-speed work cell. Simply send the reprint file directly to the Print+ Statement in-line printer within the inserter work cell. This modular and flexible solution can be configured to process your jobs quickly and easily. It's as simple as click, print, and mail!

INCREASE PRODUCTIVITY

Streamline the reprint process right within the inserter work cell to complete jobs faster, minimize idle time, reduce operator labor, and meet client SLA's. BlueCrest software automates the reprint process for greater speed and accuracy.

ELIMINATE COMPLEXITY

Consolidate document print and finishing into a single high-integrity "no-touch" operation. Reduce manual labor and the risk of errors. Print+ Statement can retrofit into existing inserters or take advantage of the roll-in/roll-out capability for utmost flexibility.

FEATURES

Printer Interface Module aligns the printer output to the inserter input.

Integrate with any BlueCrest Direct Connect inserter with sheet-feeder.
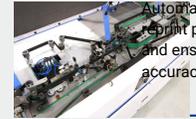

Automate the reprint process and ensures accuracy.

BlueCrest Output Manager transforms print file and applies ICC profiles.

SPECIFICATIONS

INSERTER PLATFORMS	BlueCrest Epic, Evolution, Mailstream Evolution (MSE), Mailstream Productivity Series (MPS), Flowmaster RS, and DI 4080/6080 with Mid-Tier or HPI Sheet Feeder input. Requires BlueCrest Direct Connect inserter control.
DIMENSIONS	Adds approximately 5' (1.5m) to the inserter work cell upstream of the sheet feeder
PRINTER MODULE	40 - 160 US letter pages per minute Simplex or duplex Portrait size 7' to 14' in length
