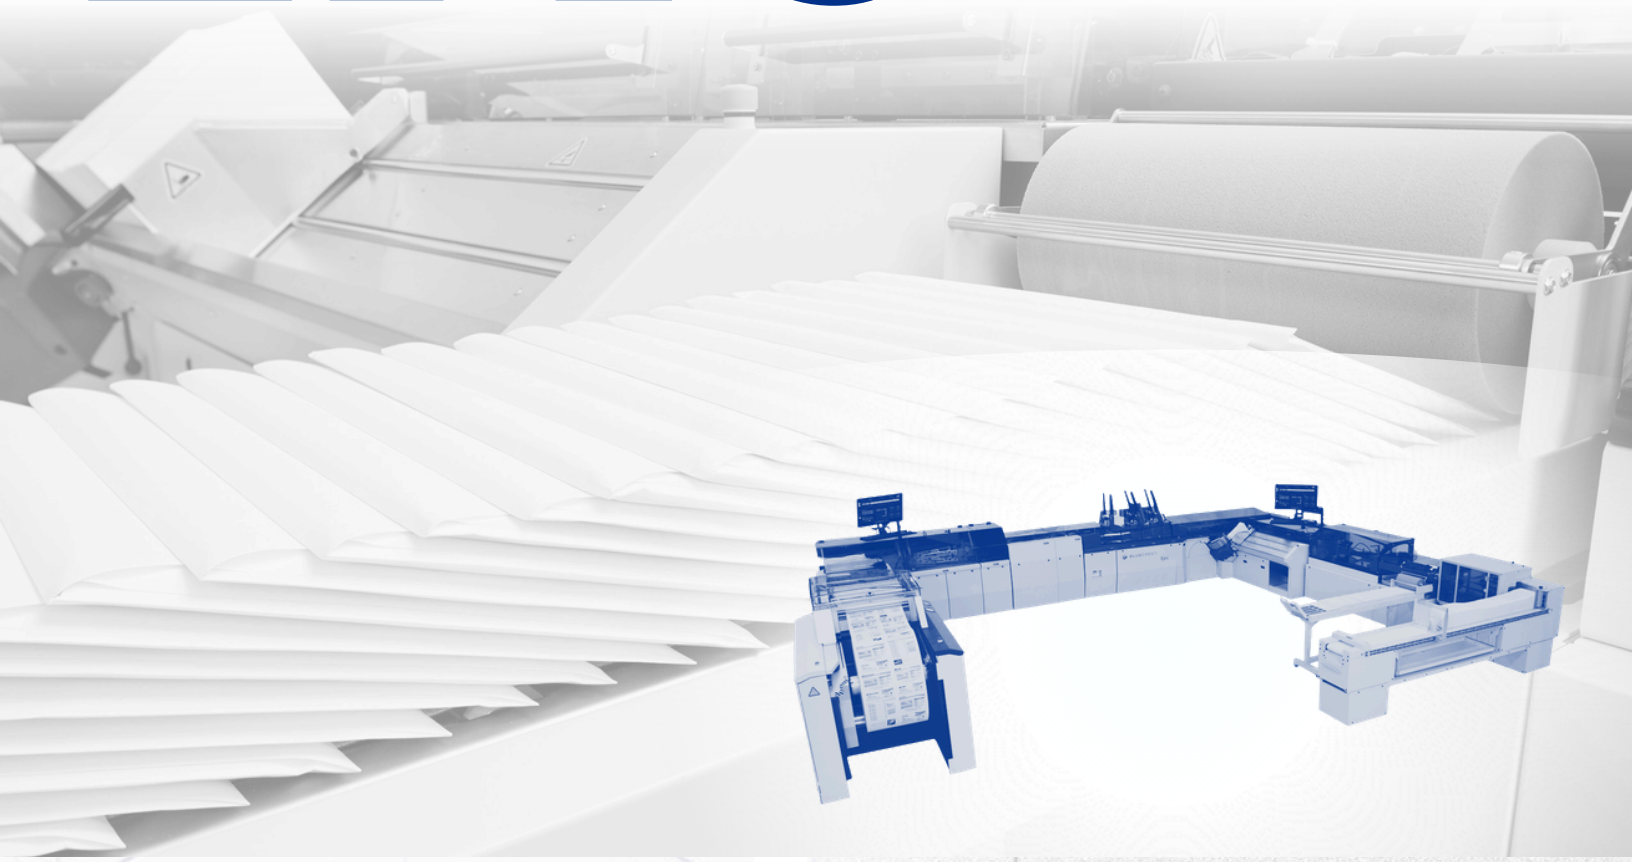
BLUECREST

HIGH-VOLUME, FLEXIBLE INSERTER THAT PROCESSES THE WIDEST RANGE OF APPLICATIONS

EPIC



Automated

Advanced automated setup, with job changeovers in minutes and automatic job recall to maximize operator productivity.

Efficient

Runs up to 24,000 envelopes per hour and with low error rates, stoppages and machine jams, allowing you to meet your SLAs.

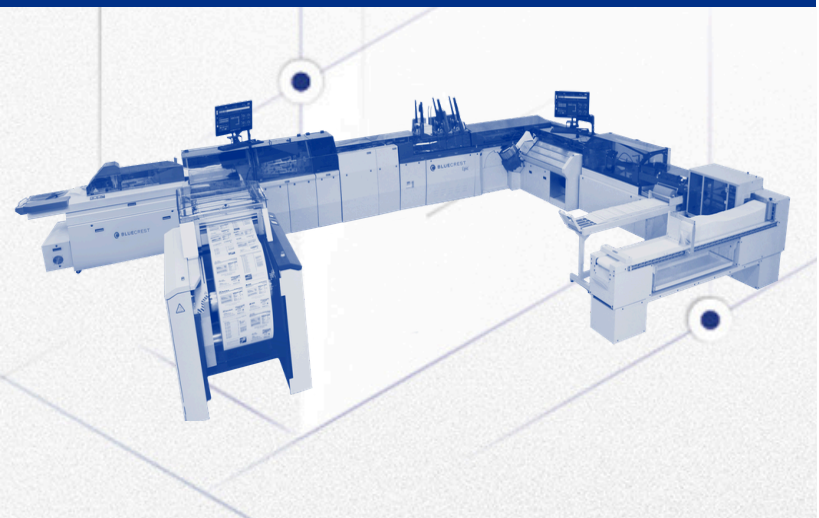
Flexible

Handles the widest variety of both transactional and direct mail applications, and envelope formats.

Easy to Operate and Service

EPIC responds to the demands of modern mailing operations that require less operator handling and more automation. Changing between envelope formats and setting up jobs are as easy as pushing a button. This in turn makes it easier on operators, while increasing your operational productivity.

Invest in the EPIC, just as hundreds of medium and large sized mailers across the globe have already done, and your capacity will improve, your yields will increase, and you will increase customer satisfaction and ability to attract new business with the robust capability that EPIC offers both you and them.



See how EPIC impacts to your business

- Easily switch between letter and flats, and simple and complex applications
- Improve operator productivity and lower labor costs for more profitable mailings
- Industry leading technology allows you to confidently quote and meet SLAs
- Consolidated workcells and work flows with a single scalable platform

EPIC makes it easy for operators

- Quick, repeatable, and consistent job changeovers with highly automated setup
- On-the-fly corrective adjustments minimize stops, spoils and out-sorts
- Designed with easy access to components meaning shorter time to repair, efficient maintenance and extended uptime

EPIC ROI

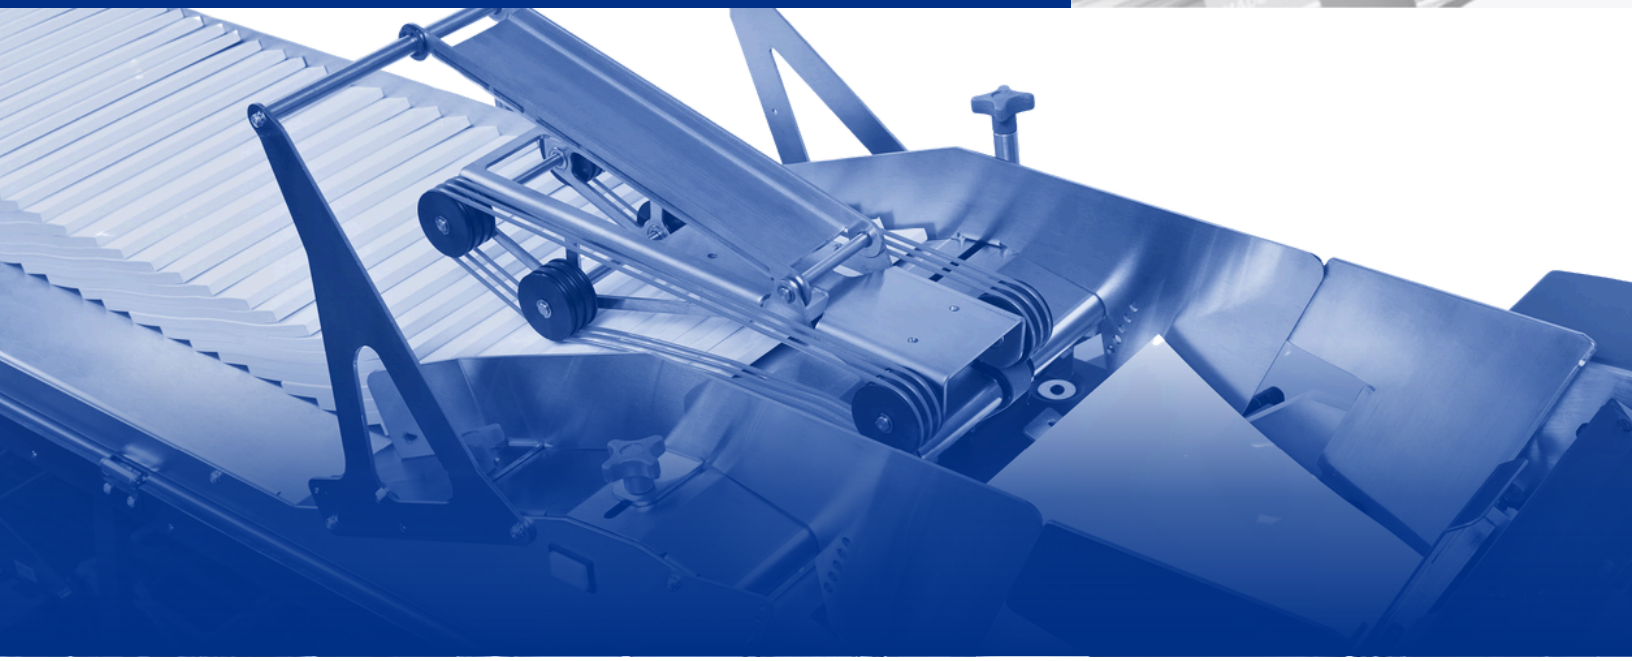
- Reduce costs with high mail piece accuracy
- Save on labor costs by automating manual tasks
- Increase capacity without additional personnel or overtime costs

Options

- Card Attaching Module
- Mail-stream merge with auto resynchronization
- Plus-Speed option for up to 14% greater productivity
- Inline, variable, full-color and monochrome printing on inserts and envelopes
- Inline dynamic stitcher
- Chassis batch feeding
- Mid-chassis merging input for inserts
- OttoMATE®: Automated mail traying cobot

Fast and Accurate Results

Achieve fast and accurate results, regardless of application. From simple to complex applications, EPIC from BlueCrest, is a high-speed inserting system designed to deliver fast and accurate results. Flexible enough to handle both Direct and Transactional Mail applications, as well as the widest variety of formats and materials. With advanced, automated set-up, full job tracking and intelligent processing data, your mail will be completed with maximum efficiency and accuracy.



This is not business as usual. **This is Epic.**

- Insert more at the “speed of right.”
  - Insert up to 14% more with the Plus Speed option
  - Up to 50% fewer outsorts and less time compared to other high-speed inserting solutions
  - Enhanced material control for complex applications
- Realize higher levels of efficiency
  - 70+ job changeovers a day
  - Changeover in less than 10 minutes
  - Through its enhanced fully automated setup, the Epic can change between formats in less time than it takes to load envelopes
- Designed to drive reduction in overall total cost of ownership
  - Lower labor costs while increasing productivity
  - Up to 3% lower material costs
  - 60% greater flats filing capacity (1/2 / 12.7mm)
