

Vantage™ Mixed Mail Stackers

Quick and cost-effective processing of thicker mail.

Overview

The Mixed Mail Stacker (MMS) feature for the Vantage™ is the latest enhancement to the BlueCrest flagship sorting solution. The mixed mail stacking technology enables the processing of thicker mail, increased mail characteristics and mail handling sensitivities. There is a large range of mail that can be processed, from postcards to business flats. The readability and system uptime is key to increased productivity, efficiency and cost savings.

Product Description

The BlueCrest MMS is flexible, modular and easy to operate. It has been designed to sort a variety of mail characteristics, from simple to complex letters and flats. The MMS provides customers the ability to configure sorting solutions based on mail volume and space availability. This new feature offers production integrity, optimum work-flow management and ease of operability to maximize operational throughput without having the need for multiple islands of technology.

The Mixed Mail Stacker (MMS) solution is made up of a single or double-sided configuration. It consists of 6 pocket increments per stacker, a control system and mail stack mechanical hardware capability that can process up to 10mm thick mail. The MMS has a single-side, optional double-side, and turn-around module to support technology flexibility and Vantage™ front-end configurations based on current or future business needs.

Specifications

Stacker Section	
Length	94.3"
Depth	35.5"
Height	55.6"

- Tray Capacity: 13.8"/350mm
- Pockets per section: 6

Throughput

Maximum throughput is up to 50,000 pieces per hour for <6mm material thickness or 36,000 pieces per hour for >6mm material thickness.

Mail Size	
Length, Min	127mm/5.0"
Length, Max	353mm / 13.9"
Height, Min	89mm/3.5"
Height, Max	305mm/12.0"
Thickness, Min	.20mm/.007"
Thickness, Max	10mm/.39"
Weight, Min	2g/.07 oz
Weight, Max	454g/16 oz

Material Types

- Standard and recycled paper
- All window types; glassine
- Card Stock
- Coated/slick paper stocks like marketing materials; glossy
- Small binders
- Business Flats
